SUMMARY

Frontend Developer with over 2 years of experience in developing scalable, high-performance web applications. Skilled in React.js, TypeScript, and Tailwind CSS, with a strong emphasis on clean, maintainable code and efficient user interactions. Enthusiastic about learning new technologies, tackling complex challenges, and staying up to date with industry advancements. Highly adaptable and always eager to explore new programming languages and frameworks to build innovative digital solutions.

EDUCATION

Telkom University

Bachelor Degree – Computer Engineering

GPA: 3.34 of 4.00

Thesis : “[Deteksi Bahasa Isyarat Sistem Isyarat Bahasa Indonesia Menggunakan Metode Single Shot Multibox Detector](#)”

Bandung

Sep 2018 – Sep 2022

TECHNICAL SKILLS

Programming Language : JavaScript, TypeScript, PHP, Golang

Web Development : React js, Next js, Remix js, Vue js, express js, node js, API Integration

Database Management : MongoDB, MySQL

State Management : Redux, Zustand

Version Control : Git, Github, Gitlab

Languages : Indonesian - native, English - intermediate (Good reading comprehension, basic writing & speaking)

RELEVANT EXPERIENCE

PT. Arthamas Solusindo

Frontend Developer

Jakarta Barat

January 2023 - Present

- Developed and maintained ERP web applications to streamline business operations and improve efficiency.
- Built and optimized responsive user interfaces using React.js, TypeScript, and Tailwind CSS.
- Worked closely with backend developers to integrate RESTful APIs for real-time data processing.
- Improved application performance and usability, reducing load time and enhancing user experience.
- Collaborated with cross-functional teams to deliver scalable and maintainable solutions aligned with business requirements.

Indonesian Institute of Science (LIPI) - Internship

Remote

Frontend Developer

July 2021 - August 2021

- Built a responsive user interface (UI) using Vue.js and CSS, ensuring accessibility across different devices.

- Collaborated with the backend team to ensure seamless data synchronization between the roasting machine and the dashboard.
- Developed an interactive dashboard to monitor an automated coffee roasting machine.

Software Engineering and Application (SEA)

Telkom University | Bandung

Laboratory Assistant

August 2020 - September 2021

- Conducted C and C++ programming classes, guiding students in fundamental programming concepts and problem-solving techniques.
- Taught web development, covering HTML, CSS, and JavaScript to help students build interactive websites.
- Assisted in debugging and troubleshooting students code, ensuring they understood best practices in software development.
- Provided one-on-one mentoring and practical sessions to reinforce theoretical knowledge with hands-on coding exercises.
- Collaborated with fellow assistants and lecturers to improve learning materials and teaching methods.
